

FLOOD DEFENDER UPVC Doors

KM713574

UPVC DOORS

WHY CHOOSE THE FLOOD DEFENDER UPVC DOOR?

The Flood Defender Door is a highly engineered flood defence product. Visually and functionally, in non flood conditions, the door performs as a 'standard' PVC door.

The door features a number of sophisticated internal components enabling the door to perform as a flood proof door to mitigate against rising flood waters up to a height of 600mm.

The Flood Defender Door can be manufactured as a bespoke item to a variety of widths and heights, and can incorporate both fully glazed panels as well as full or part PVC panels. Widths beyond a double patio door size can be incorporated by the inclusion of PVC or glazed side panels.

4 STEPS TO CHOOSING YOUR DOOR

- | | |
|-------------------------------|----------------|
| 1. SELECT YOUR DOOR | Pages 2, 3 & 4 |
| 2. SELECT YOUR GLASS DESIGN | Page 3 |
| 3. SELECT YOUR DOOR COLOUR | Page 5 |
| 4. SELECT YOUR DOOR FURNITURE | Page 5 |
